Steven Dzionara
Sr. Flutter Developer

2012 –2014
Work & Travel

What ever I felt like doing
After school I got rejected from college. Therefor I decided to travel for some time. Spent several month in different countries (Thailand, Australia, Morocco, Oman, Israel, Spain, Tunis, Turkey). Had a lot of different jobs e.g. picking fruits, service in hostels, bar-keeping, car-washer, renting jet-skis, club promoter, and probably a lot more.

2015 –2020
CD Klause

Barchef / Co-Owner
Scharbeutz. A small bar, owned with a good friend. Ordering goods, managing personal, daily accounting, cleaning, marketing and whatever belongs to owning a bar.

2020–2022
Phntm

Flutter Developer (Web/Desktop)
Monheim (remote). Flutter-Agency. Worked on some internal projects for Vodafone and the app for 'Die Ringe'. Besides general coding I took care and responsibility for the junior devs in our team. Sprint/ Feature planning, solving architectural design questions and the adherence of deadlines and decisions are part of my daily work. I am although responsible for updating the CI/CD and different environments under required safety regulations.

2022 –2023
Beautinda

Sr. Flutter Developer (iOS/Android)
Essen (remote). Beauty Marketplace Startup. Refactoring old code and make project null-safe. Adding new screens and features. Firebase/Cloud Functions. CI/CD. Reviewing and merging of the teams Merge-Requests. Payments (Stripe, Alma). Creating and implementing a new calendar package.

2023 –2024
schwäbisch-media.de

Sr. Flutter Developer (iOS/Android)
Ravensburg (remote).I've focused on extensive refacotring of the app's codebase to meet industry standards.
– Navigation with deep linking on ios and android
– Movie streaming
– Creating a member rewards card
– Create a highly scaleable epaper visualisation for multiple publishers

– Gave several talks about Flutter (e.g. testing, routing, render objects, layout)
– Prepared and hold Flutter work-shops and coachings, the biggest one was together with Pascal Welsch a GDE for Flutter (who is basically my mentor from early 2020)
– I really love to help and teach people new things, especially related to Flutter, because this Framework is just amazing
